- React.js
- Tailwind CSS
- Adobe Photoshop
- Illustrator
- Blender
- Figma
- Canva.

Tools:
- Git/GitHub
- VS Code
- Postman

OVERVIEW

- Detail-oriented full-stack software development. Leverages artistic background to bridge the gap between functional backend logic and intuitive frontend design. Certified IT Specialist seeking a job opportunity to contribute technical skills in React, Node.js, and C# while ensuring high-quality user experiences.

CERTIFICATION

IT SPECIALIST - SOFTWARE DEVELOPMENT   *2025 - 2030*
Certiport Certification - LE9P-s4NX

- Validated proficiency in core software development concepts, including object-oriented programming, data structures, and algorithm logic.
- Demonstrated competence in debugging, error handling, database management and software lifecycle management.

EXPERIENCE

Freelance UI/Visual Designer   *2021 - Present*
Self-Employed

- Designed high-fidelity mockups and UI assets using Adobe Photoshop and Illustrator, directly supporting frontend implementation.
- Collaborated with clients to create branding materials that align with modern web design standards.
- Applied color theory and layout principles to enhance user engagement and visual hierarchy in digital products.

Freelance Software Developer   *2023 - Present*
Self-Employed

- Developed and deployed responsive web applications using React.js and Node.js, focusing on clean component architecture and reusable code.
- Translated client requirements into functional technical specifications and user-friendly interfaces.

KEY PROJECTS

NeoArt (Capstone Project) | neo-art.online   *2025*
React, Node.js, Firebase

- An Interactive E-learning 2D Animation Platform

SBO Financial Management Portal | *2025*
sbo-finance-management-portal.42web.io
React, Node.js, Supabase

- A role-based system designed to provide transparency and efficient management of Student Body Organization finances.
